Education

Bachelor Of Engineering In Computer Engineering Vidyalankar Institute Of Technology • CGPA - 9.29	2020 – 2024 Mumbai
HSC(Bifocal-Electronics) Swami Vivekanand Junior College • Percentage - 86.62%	2018 – 2020 Mumbai
SSC Nutan Vidya Mandir • Percentage : 93.20%	2016 – 2018 Mumbai

Internship Experience

Software Developer Intern, Sciative Solutions • Developed proficiency in writing MySQL queries and using MongoDB aggregation pipelines for data manipulation. • Gained experience in creating FastAPI endpoints for backend functionality. • Implemented PDF parsing in React for extracting and utilizing data from documents. • I had worked upon the HR Management System(HRM)	06/2024 – 07/2024 Navi-Mumbai
Wordpress Developer Intern, Winsple • Worked extensively with WordPress, participating in team meetings and contributing ideas for website improvement. • Assisted in the customization and implementation of WordPress themes and plugins to meet client requirements.	01/2023 – 02/2023 Remote

Personal Projects

Title : CountriesAPI, Live-Link 🔗 Technologies Used - ReactJS, Tailwind CSS, RestAPI • This project showcases a responsive website fetching country data from a REST API using React.js and Tailwind CSS. • Key features include search functionality, filtering by region, and a toggle for dark/light mode, ensuring a dynamic and user-friendly experience. Built as a Frontend Mentor challenge, it emphasizes interactive and modern UI design.	07/2023 – 10/2023
Title : Image-wiz, Live-Link 🔗 Technologies Used - NextJS, CSS5, Bootstrap • Web-ImageWiz is an individual Project. Basically it is a website in which we can apply various filters like hue, contrast, opacity etc. to image and user can find the perfect values.	02/2024 – 03/2024
